

I'M LOOKING FOR A REMOTE JOB/INTERNSHIP

Milestone 3
PROMOTE
Develop Your Brand

What are some of the benefits of a remote position?

Many people prefer to work or intern remotely for many reasons. The flexibility of being able to work in your home environment eliminates the need to commute, provides a better balance to people taking care of children or family members, and is a more accessible option for people with disabilities or illness. It also may open up your options to positions out of state or across the country.

What are questions I can ask a potential employer to make sure a remote position is right for me?

- How do you currently support remote workers?
- Are there opportunities to get to know and network with my coworkers?
- What will communication look like throughout the day/week to make sure I am getting my questions answered and work done correctly?
- Is this position 100% remote, or do I have the option to commute to a physical office space if I would like to?
